Duo Pod View

Peace in a Pod

The Syneo Line Duo Pod View provides a peaceful environment for phone calls, video conferences, interviews, private meetings and a silent retreat for uninterrupted work for up to two people. The pod is designed with your office in mind.

Don’t worry though, users will still be able to hear the important ring of an alarm from inside the pod.

The Knowledge

Kelvin (K) relates to the colour temperature of light, while Lux (lx) measures luminance, indicating the brightness.

An airflow gap is essential for maintaining a comfortable and healthy environment within the acoustic pod, helping to dissipate any heat generated within the pod and ensures that air circulation is sufficient for occupants.

Power into this pod will come through the side wall, this is another reason a 50mm airflow gap is essential.
