

Syneo Line

Phone Booth

"Booth's designed with health and wellbeing in mind, with acoustic brilliance."

Phone Booth

Why choose Syneo Line?

Functional

Equipped with everything you would need to provide the best user experience

Inclusive

DDA compliant on entry

Modular

Create easy assembled modular private spaces in a compact form

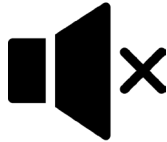

Private

Allowing employees to have the privacy needed in simple way

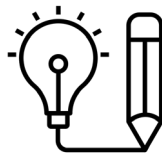

Syneo Line is the perfect environment for...

Confidential meetings

Quiet working

Creativity

Phone Booth

Peace in a Booth

The Syneo Line Phone Booth provides a peaceful environment for phone calls, video conferences, interviews, private meetings and a silent retreat for uninterrupted work. The booth is designed with your office in mind.

Don't worry though, users will still be able to hear the important ring of an alarm from inside the booth.

The Knowledge

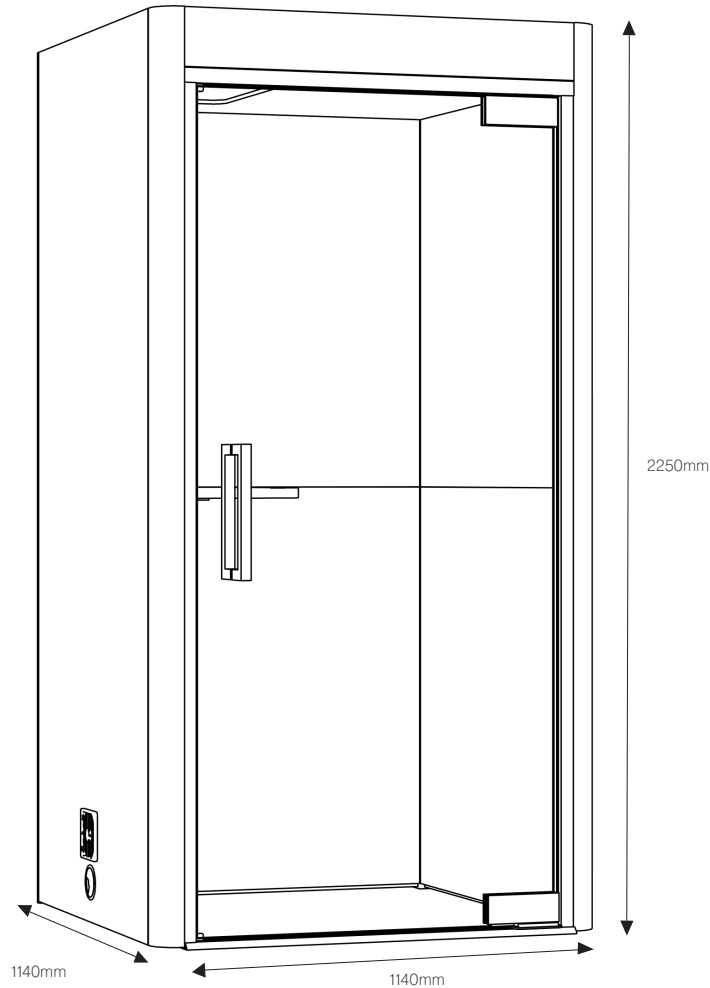

Kelvin (K) relates to the colour temperature of light, while Lux (lx) measures luminance, indicating the brightness.

An airflow gap is essential for maintaining a comfortable and healthy environment within the acoustic booth, helping to dissipate any heat generated within the booth and ensures that air circulation is sufficient for occupants.

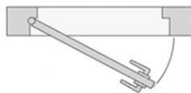

Power into this booth will come through the side wall, this is another reason a 50mm airflow gap is essential.
