## Peace in a Booth

The Syneo Line Team Booth XL provides a peaceful environment for phone calls, video conferences, interviews, private meetings and a silent retreat for uninterrupted work for up to six people. The booth is designed with your office in mind.

Don't worry though, users will still be able to hear the important ring of an alarm from inside the booth.

## The Knowledge

Kelvin (K) relates to the colour temperature of light, while Lux (lx) measures luminance, indicating the brightness.

An airflow gap is essential for maintaining a comfortable and healthy environment within the acoustic booth, helping to dissipate any heat generated within the booth and ensures that air circulation is sufficient for occupants.

Power into this booth will come through the back wall, this is another reason a 50mm airflow gap is essential.
